This Transit Custom has 18" alloy wheels, sun visor, chequered decals (easily removable), new tow bar and has been partially converted in the back with a single bed base with some storage and rear section for tools as the previous owner was a car racer! It has also been remapped by Celtic tuning and drives very well. The only let down with this van is the bodywork, there is various defects all over and would ideally need some paint. We have it booked in for this at the end of July but offering it as it is prior to this. The price will increase when paintwork is carried out.
